FUTURE
DIRECTIONS

System(s) View vs. Field View

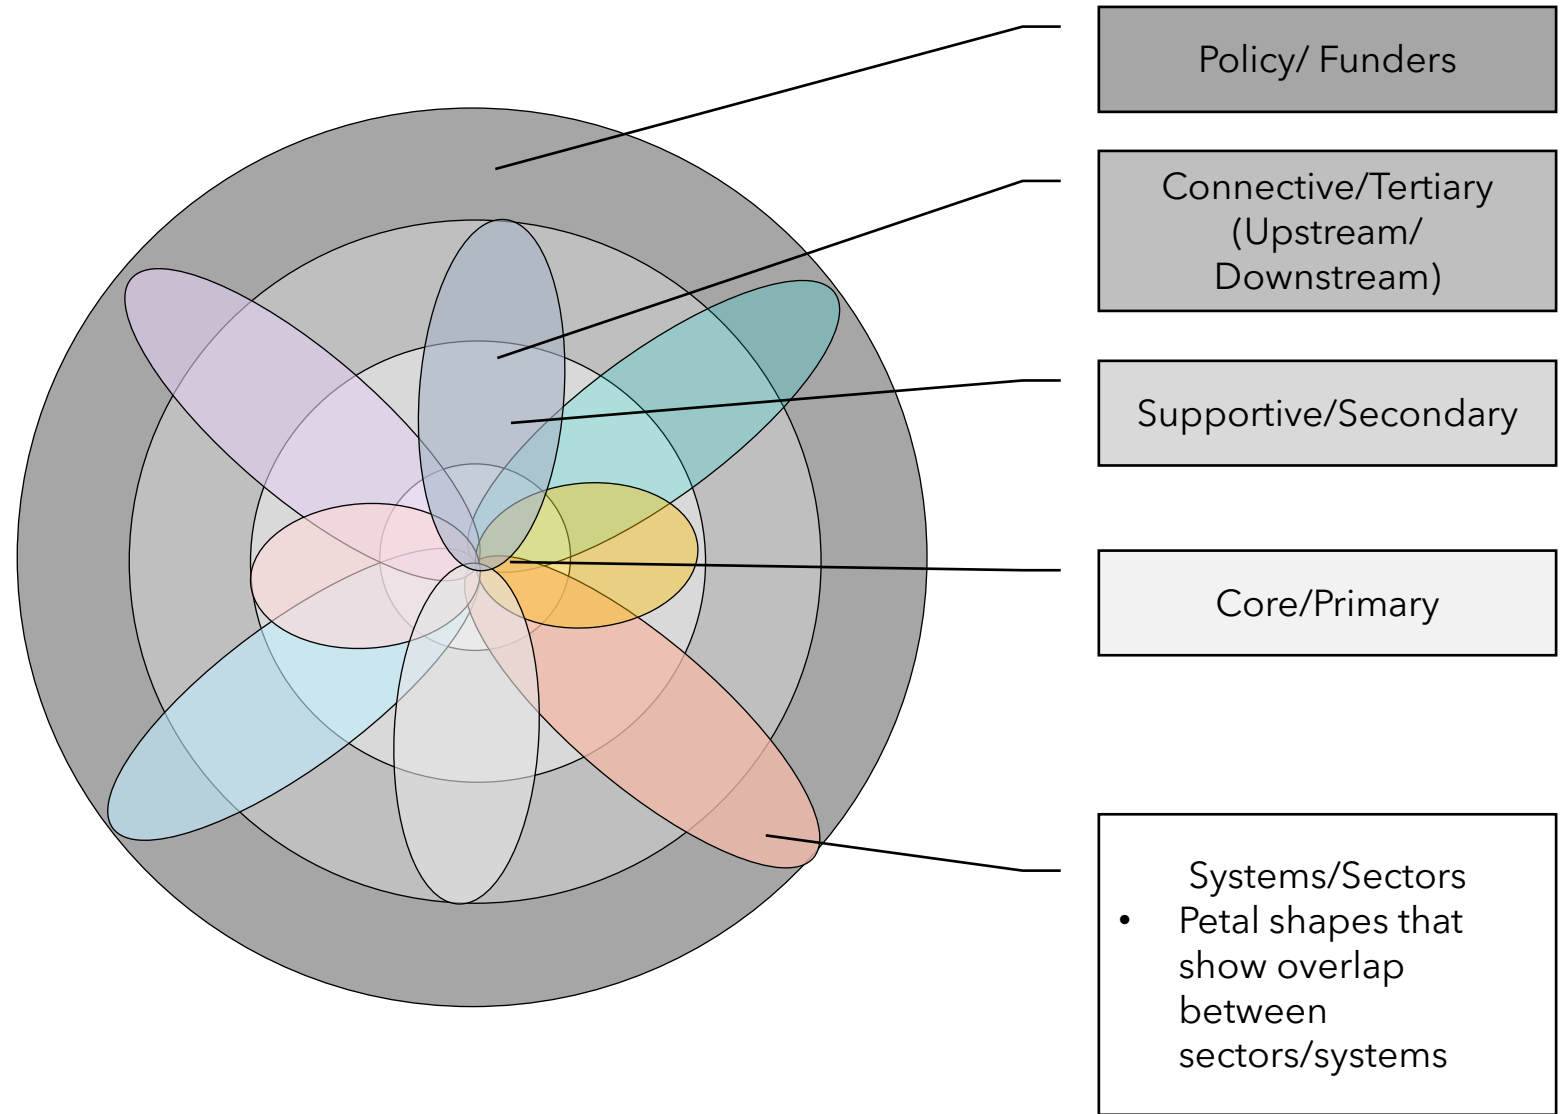

System(s) View

- Focused on a single or limited view point
 - Housing
 - Health
 - Enforcement
- Can result in solutions that are narrowly focused and from limited perspectives

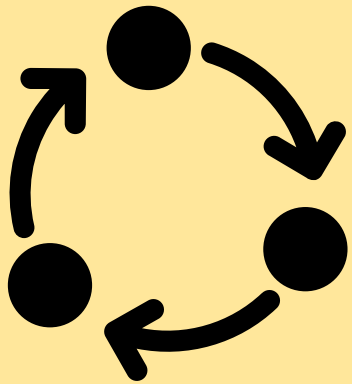

Field View

- Multiple views
- Focused on interactions between and across
- Can result in identification of gaps and the conflicts that occur between systems

Cumulative Map

Impact on Practitioners Work

Potential Use in Community

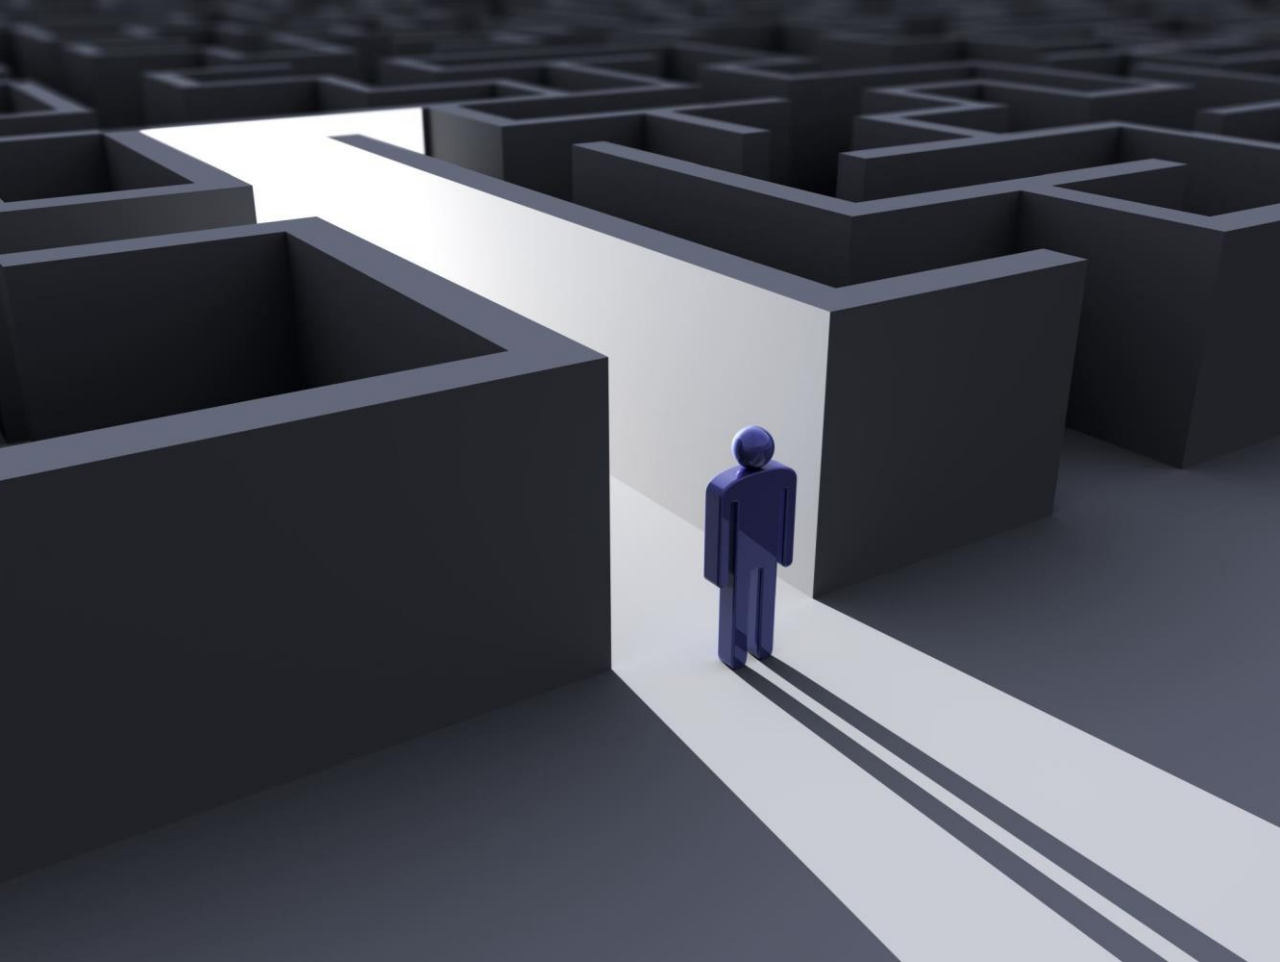

Facilitate community conversation

Create collective/collaborative action

Mobilize/Unlock resources

Community allocation

Further validate the model
Identify a test community(s)
Create a mapping toolkit
(Finish my PhD)

Future Directions
